

CSS Exercise 4

Use always relative measure units to build a web responsive page:

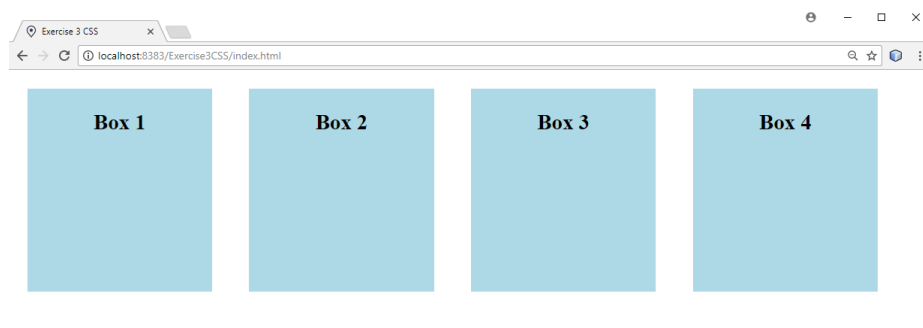

- Use px only for borders
- Use em for padding
- Use percentage for the rest of measures (margin, width, ...)

It is important to reset default rules from different browsers. Use at least:

```
* {  
  box-sizing: border-box;  
  margin:0;  
  padding:0;  
}
```

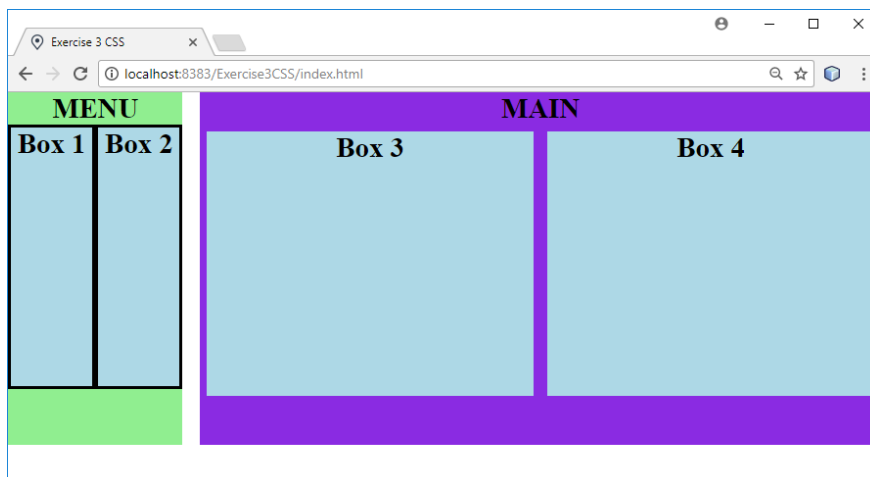

Part 1

Use HTML and CSS to create the following boxes:

Part 2

Add two more containers to create this webpage:

Part 3

Use HTML and CSS to create the following webpage. Import font font-family: 'Gloria Hallelujah', cursive; from Google fonts:
