<b>URL of the page</b>	<b>2</b>
<b>Screenshots validations</b>	<b>3</b>

## Description of the site

This website is about pd's resort, a resort in the Seychelles Islands. In this website the principal page is the home where you can find a bit of history of the resort, some pictures in a gallery of the place, a table with customer reviews and a description of the resort's rooms. There is also a navbar for moving between subpages, an aside with internal links in the page and a footer.

The second subpage is the activities one. In it there is a navbar, a dropdown, and description of each activity with carousels, videos, audios and single images. Indeed, there is a form for inscribing the different activities and a footer.

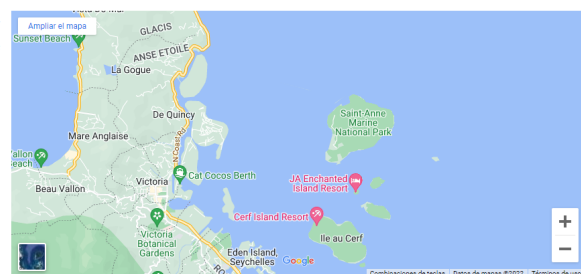

Location is the last subpage you can find on the web. In it there is a google maps map where you can see the location of the resort, a table with the boat schedule, the weather of the place and a list with the steps to arrive at the resort.

## Extras

- Google maps

Where are we? 

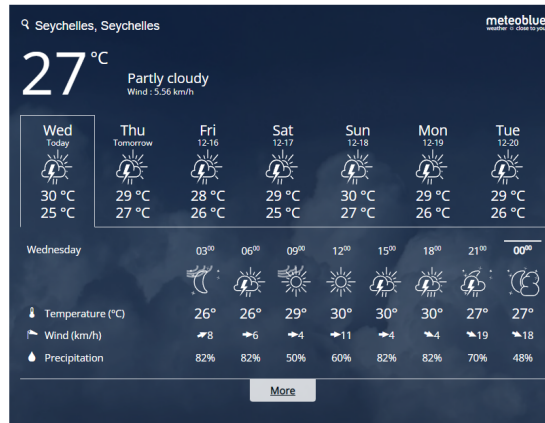

Our Resort is located in one of the Seychelles Islands. We share island with Saint-Anne marine national park which contain an astonishing fauna. We are only a fifteen minute boat ride from the main island to the resort. You can enjoy a pleasant journey between the calm sea and tropical fish.

## - Weather widget

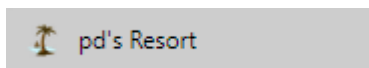

### Weather ☀

The climate of the Seychelles archipelago is strongly influenced by the ocean, especially through changes in monsoonal winds, ocean currents and sea surface temperature patterns, hence a tropical maritime climate. It has an average temperature between 26 and 32 degrees. Thanks to its equatorial location, the Seychelles does not experience much variation, and the weather is therefore ideal all year-round for a holiday.

- Aside position fixed: the aside of the principal page moves when scrolled.

- Favicon
